- Questions

Testbed timeline

- Tender published: July 5th 2021
- Information session: Today
- Deadline for questions: July 22nd 2021
- Information note: July 29th 2021
- Deadline for submission of proposals: September 2nd 2021
- Announcing of selected parties: September 9th 2021

Available budget

- € 12.500 excluding 21% VAT is available per researchtopic
- Parties are allowed to tender for more than one research topic.
  - However, a contractor is only awarded one research topic, not several.

How to tender

- The tender preferably in English contains:
  - The research topic(s) you are applying for
  - Motivation for the research topic(s) you are applying for
  - Plan of approach for each addressed research topic
    - max 4 pages per topic
  - References and curriculum vitae for performers of the research
    - e.g. publications, projects, blogs, code on GitHub
  - An indication of the in-kind investment
  - Statement of agreement with the publication of the research results and deliverables under a CC/by license.
- Submitted by e-mail to info@geonovum.nl addressed to Rob van de Velde (our director)
